

GAMALEARN
Experience. Innovate

GamaLearn Profile

Cumulative experience in improving the field of e-Learning, e-Training and e-Contents in MENA.

About GamaLearn

GamaLearn – since 1989 - was built with the vision of driving innovation into both the Educational & Training sectors, using cutting-edge solutions in order to transform and disrupt the traditional methodologies. Working with a large pool of ministries, universities, schools and professional development firms, our portfolio of applications and services cover ranges from Classroom interactions to international assessments. Today, our tools are leading the transformation for a smarter, more empowered and spot-on analysis to track progress on all levels by all involved stakeholders. GamaLearn is a Microsoft ISV and AEP in the MENA region.
